

WELCOME TO

ALX GLOBAL

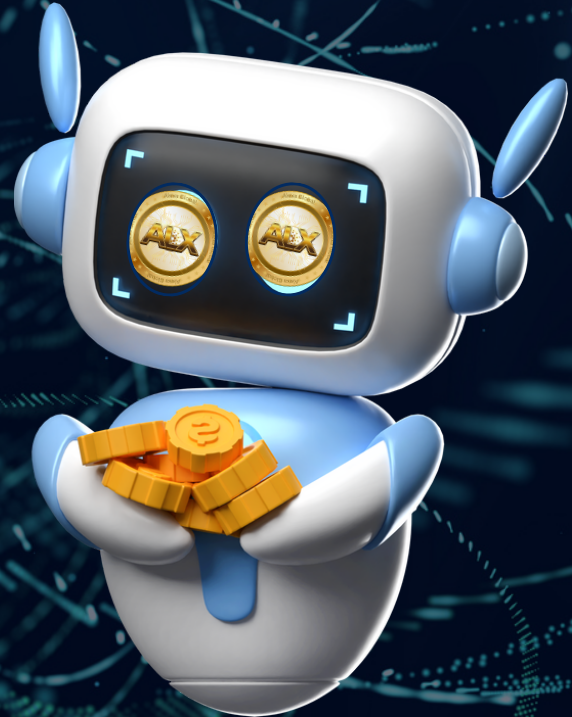

NEXT GENERATION 100% DECENTRALIZED NETWORK

"A fully decentralized smart contract running on the MATIC COIN within the Polygon Network.

ALX-GLOBAL

A DECENTRALIZED NETWORK

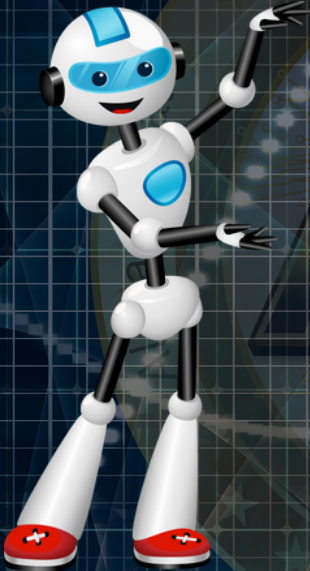

<https://alxglobal.network>

CROWDFUNDING

"Crowdfunding leverages small contributions from a large number of individuals to fund new business ventures or community initiatives. It takes advantage of the widespread reach of social media and crowdfunding platforms, facilitating the connection between investors and entrepreneurs. This approach has the potential to boost entrepreneurship by broadening the base of investors beyond the conventional realm of business owners, family members, and venture capitalists."

ALX-GLOBAL
IS A DECENTRALIZED NETWORK

<https://alxglobal.network>

OUR-VISION

"Global Work Accessibility."

"Work from any corner of the globe."

Fully Decentralized

"The program operates exclusively on public blockchain technology, embracing full decentralization with self-executing code algorithms, eliminating the necessity for third-party interactions."

"Validated smart contract."

"An open-source smart contract on the Polygon blockchain, thoroughly verified and transparent. It operates with complete transparency and is powered by the Matic (Polygon) cryptocurrency, fostering international and decentralized interactions."

Power of Decentralized Network

"Completely secure and transparent."

Blockchain is renowned for its unparalleled safety and security. Its design ensures the immutability of algorithms and the preservation of member data. The system can function independently without a website; the site is solely required for the convenient display of statistics."

"Completely secure and transparent."

"Blockchain is renowned for its unparalleled safety and security. Its design ensures the immutability of algorithms and the preservation of member data. The system can function independently without a website; the site is solely required for the convenient display of statistics."

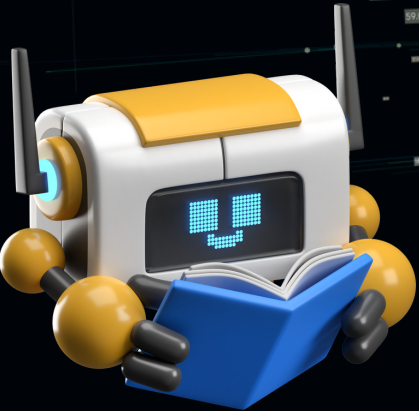

<https://alxglobal.network>

SMART-CONTRACT

A smart contract is a self-executing contract with the terms of the agreement directly written into code. These contracts operate on blockchain technology and automatically execute, enforce, or facilitate the negotiation or performance of a contract when predefined conditions or rules are met. They eliminate the need for intermediaries and can be used in various applications, including finance, real estate, supply chain management, and more. The code and transactions of smart contracts are recorded on a blockchain, ensuring transparency and security.

HOW TO-START

ENTER INTO
ALX ECOSYSTEM

ALX-GLOBAL

IS A DECENTRALIZED NETWORK

01.

"Access your Trust Wallet, Token Pocket, or MetaMask Wallet."

02.

"Ensure you have an ample quantity of MATIC in your wallet to cover the costs of ID activation and gas fees."

03.

"Connect your wallet with our website."

04.

"Enter into the Alexa Global Ecosystem."

<https://alxglobal.network>

8 WAYS TO GET-INCOME

We Each Do A Little To
All Receive A Lot !

So Many Ways
To Receive!

Donations may
keep flowing in
endlessly!
